DETAILED ACTION

Allowable Subject Matter

Claims 12 and 16 are allowed.

The following is an examiner's statement of reasons for allowance:

As per claim 12:

Claims 12 is allowable over the prior art in view of the current amendment to include claims 13-15 in addition to the original claim 12. The original claim 15 was objected to in view of ordering systems in a level of criticality and repairing those applications with the highest level of criticality first. This in combination with all the preceding error logging, unique identifier, and storage claimed subject matter makes claim 12 allowable over the prior art.

As per claim 16:

Claim 16 is a tangible computer readable medium claim corresponding to the method claim 12. Therefore, claim 16 is allowable for the same rationale set forth in claim 12.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
